Embroider the Following:

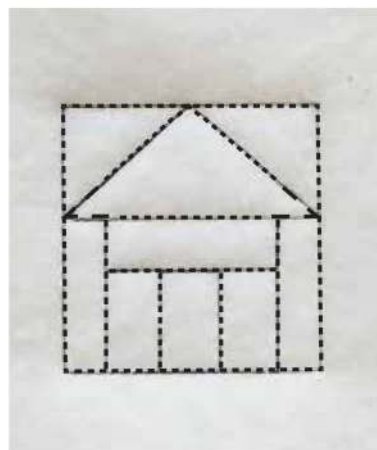

1. Hoop stabilizer only, in the appropriate size hoop.

2. Stitch the first step: **the placement line** directly onto the stabilizer. Place the oversized piece of batting on top of the stabilizer. Be sure the box is completely covered.

3. Stitch the next step: the **house piecing template**. This is stitched on top of the batting.

NOTE: All stitching will be done **on top** of the batting. Do not cut the batting until the final step.
