Pattern Notes and Helpful Tips

Using Kimberbell Products:

Kimberbell Paper Tape

- We recommend taping all applique pieces in place to prevent shifting of fabric during the tack-down stitch.

Kimberbell Fusible Backing

- To provide extra structure to the fabric and reduce puckering, we recommend using **Fusible Backing**. This is used in addition to the required stabilizer, and is adhered to the **wrong side** of the background fabric.
- To eliminate shadowing when appliqueing a light fabric onto a dark background, adhere **Fusible Backing** to the **wrong side** of the applique fabric.

Notes:

Chenille: Lightly spray chenille fabric with water to cut down on brushing time.

Instruction Key

Each project will have a list of instructions to follow. These instructions include the following icons:

1. The **direction step** is found in the top corner of each photo.

 The **machine step** of the embroidery file (also found on your machine) is located in the box with the machine icon.

- Any **action item**, such as placing or trimming materials before the next step is stitched, is indicated by a bullet point.

 The **thread color box** indicates the color of thread that was used for the sample. Color of thread will show in project.

 The **slashed color box** indicates a light thread color should be used. These stitches will not show in the end project.

 The **bobbin icon** indicates when the bobbin thread color needs to be changed.

 The **iron icon** indicates that ironing is needed. Use the Pattern Notes and Helpful Tips section to determine the requirements for ironing various embellishments in your project.

 The **embroidery hoop icon** uses an arrow to indicate the top of the stitched design.

A **photo** of each machine step and action item depicts the instructions and shows how the steps are completed. When a photo shows fill, outline, or detail stitches, an arrow will point to those stitches.

Embroidery Thread Colors Used In Sample:

Example

Direction Step

4.  **right side of glitter**

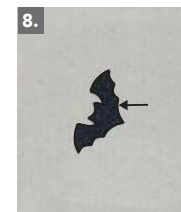

5. 

6. 

- Place the Bat Glitter **right side up**, completely covering the placement line.
- Stitch the Bat Tack-down Line.
- Trim glitter close to the stitch line.

Machine Step

7. 

8. 

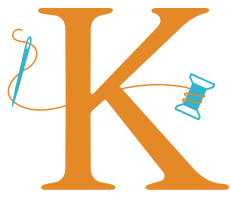

- Using a pressing cloth, iron glitter for 15-20 seconds to adhere to project.
- Stitch the Bat Satin Outline.

Action Item

Icons used in example:     

Note: When fabric is placed in the hoop, a corner is folded back for illustration purposes only. Place your fabric completely flat.

Note: Stitching outlines on photos are shown for illustration purposes only and do not reflect thread colors used to make the sample.
